

**Graduates of Clairvoyant Programs and SHAPE Community:**

***A Special NewsFlash and Important Message From Michael Tamura***

\*\*\*Starting this [Friday, August 5th](#) and for a very limited time only, Michael will offer specialized private clairvoyant sessions for those who have been part of the SHAPE Community as well as other qualified graduates of clairvoyant programs. Read his message and find out the details below.

Dear SHAPE Community Participants and Graduates of Clairvoyant Programs,

We've already zoomed well into the second half of 2011 and it's been an amazing, albeit not necessarily easy, ride! Many of you may agree with me that especially between our extraordinary October 2010 and May 2011 SHAPE Mount Shasta Retreat Intensives (and everything else we've been doing!), we've catapulted ourselves into an entirely different stratosphere of awareness, healing, spiritual and personal growth, and of setting a new space and energy in the world. Naturally, this brings about a profound set of shifts within ourselves and how we relate in the world around us. I hope that, even if it's been challenging, you are enjoying learning to surf this incredible wave.

As for me, these last two months of teaching, writing, traveling, celebrating, and swimming with my beautiful friends in the ocean (nai'a and honu), I've had a chance to reflect much more upon how I could help you further your mastery of energy work, clairvoyant reading, healing, teaching, and of making all of this more fully integrated in your daily life in the world - whatever you happen to be doing. I've had a chance to observe many of you, from those of you who are relatively new graduates of clairvoyant training to those of you who have been reading professionally or teaching and guiding others for many years now. And, I've been heartened by what I've seen. So much so, in fact, that I've decided to make a temporary exception for you to my "no private session" status I have strictly kept for the past five years. I'm making this exception, however, just for a limited time and with a specific purpose in mind just for those of you who are graduates of clairvoyant programs and/or those who have been active in the SHAPE Community. I will not be giving readings to those who have not at least

successfully completed their clairvoyant training in an approved school or who have not been part of SHAPE. Besides, I am offering a brand new kind of private clairvoyant session over the phone on a recorded teleconference line (so that you will be able to receive your audio download of your session within a day or two).

I will make two kinds of one-and-a-half hour (90-minute) sessions available to you. For those of you who have your heart set on just having a reading session with me on a particular question or area of your life, I can give you that during this time period. However, my real purpose for offering these private sessions is for a brand new type of session that I have created for those of you who are wanting to further your awareness, clairvoyant abilities, reading skills, and energy mastery as you progress on your spiritual path. These 90-minute sessions will include:

**A comprehensive energy/skills check and guidance on your**

- grounding
- being in the center of your head
- energy channels
- energy running
- chakras
- analyzer
- neutrality
- ownership of your psychic space
- creating and destroying mental images
- picture-making machine
- screens
- reading space
- certainty
- managing/maintaining/healing of your aura
- management of matching pictures
- in and out of body skills
- deprogramming skills
- or other skills if more pertinent

**A reading of your current growth space**

**A reading of your next step**

Besides having graduated from a clairvoyant program or being a SHAPE Participant, a pre-requisite for you to have a private session with me is to ground, run your energy, and find your space for at least 20 - 30 minutes immediately prior to your session. This new session will be an interactive reading/energy check/guidance session. I will be directing you in your practice of these clairvoyant skills and tools and as you practice

them, I will be reading you, giving you an energy check, and offering you communication and guidance about your progress. In addition, I'll be giving you a reading on your current growth space and offer my guidance on what might serve you best for your next step(s).

For those of you who would still rather have me read and help you heal/work on a particular question or situation for you, the two pre-requisites will be the same as for the session described above. This reading/healing session is for a graduate clairvoyant so please do not come to me to have me solve a problem for you. It will be a reading/healing session, but, I will be giving it in the context of your further development and mastery of your abilities, skills, and practices.

I will offer the following dates and times for this round of private sessions. Then, I will take a couple of weeks to evaluate what I experience in them to see if I will offer another round. As I stated above, my purpose for providing these sessions is to help you develop more in your energy work, clairvoyant reading, healing, and teaching as well as more fully integrate all of this in your daily life in the world. I am also using these sessions to help you prepare more for the upcoming SHAPE teleseminar series and our October SHAPE Mount Shasta Retreat. In addition, I have been looking at providing a series of reading clinic and coaching teleconference intensives for those of you who would like to step up your clairvoyant reading, healing, and energy work abilities in smaller group sessions with individual feedback and guidance from me. These private energy/skills check and guidance sessions will provide a great prelude and preparation for the group reading clinic and coaching intensives.

I'm very much looking forward to seeing you in these sessions!

With gratitude, enthusiasm, and love,

*Michael*
