TC13 - The Care & Feeding of Your Astral Body

12/29 Saturday 10 AM - 12 PM (PDT)

TC14 - Making the Astral Part of Your Everyday Life

Dear Friends and Awakening Souls,

Yes, **You Might Be More Psychic Than You Think!** That's why we decided to teach this new series of two-hour teleclasses. You are already psychic, you just need to learn to make use of all of your abilities and apply them much more consciously in your day-to-day lives.

We have entered living in a time on this planet during which every one of us needs to expand and deepen our consciousness. We are rapidly evolving from complacently remaining a body-centered intellectual race to actively becoming the spirit-centered intuitive race that we are meant to be. As much as technology has advanced us intellectually and physically, they alone cannot solve the now seemingly insurmountable problems facing our world. Everyone of us now needs to commit to being part of the solution, not the problem. That commitment requires each of us to first become more aware of our spiritual and soul-based life. That is our psychic life, but do you really know how you are living it already? How can you become more conscious of your pre-existing psychic life, so you can better become the solution to the problems in our world?

We'll still need technology, but we can no longer separate technology and spirit as if that is actually possible. Spirit always is and forever will be. It's what we call the infinite and the eternal. All technology, no matter how great and beneficial it may be, is temporary. It comes and goes. Without the awareness and continuity of spirit driving the purpose for advancing our technology, technology has proven time and again to present severe backlashes, for even the best of innovations - sometimes, the cure is even worse than the disease.

We are interested in turning around this big ship we've been on, so you can all live long and prosper. And we have the first and all-important step to get you started: Becoming more aware of your true self and your psychic/soul life. We know that if you had simple-to-learn, but powerful psychic tools that you can use and apply in your daily life, you can accomplish this.

We welcome you to join us for our brand new set of teleclasses in our on-going series, You Might Be More Psychic Than You Think! Developing Your Soul Abilities for Your Spiritual Growth and Fulfillment. From the comfort and safety of your own home, learn much more about your various psychic abilities, become more aware of how they work in you, what their purpose is, and how to not only develop them further but to do so with awareness and tools, so you can manage them properly. It's time to fully enjoy being psychic - because it is wonderful. Your psychic abilities stepping up just means that you are starting to become more aware of yourself as the immortal soul that you are. And, when you begin to use your psychic abilities more consciously, you will be able to experience yourself as the soul that you already are.

This new set of seven teleclasses we're devoting to the exploration, understanding, and use of roughly the third of your life that you may not be that aware of yet: The Astral Plane - or

all that happens and what you experience and learn in that space of consciousness especially unlimited by your physical limitations. The Astral Plane has often been referred to as “beyond the physical world”, “the heavens”, “the afterlife”, or simply, “the spiritual realm”. Every night when you go to sleep, you don’t just sleep as a soul - spirit never needs to sleep. So, then, where do you go and what do you do for 6 - 8 hours on the average out of each 24 hour day? The benefits and advantages are incredible when you consider what you can learn and accomplish in limitless space without the restrictions of time. You’ll learn to accelerate your awakening and many other things in your life. Most of all, you’ll get to know yourself so much more!

See you in class!

With gratitude, love, and laughter,

Michael & Raphaelle
