What Do You Do in Your Astral Life?

Psychic Tools to Get More Done While You Sleep

Sunday, May 5th 10 AM - 5 PM

Dear Friends and Awakening Souls,

Roughly one-third of your life you spend sleeping. Of the two-thirds of your life that you are awake, how often are you not fully present, here and now? Have you ever wondered where you go, during those times when you're not here? And, what do you do there, wherever it is that you go?

There are a lot of stories about creative geniuses who would be technically awake, but seemingly “somewhere” else, when others tried to engage them in normal conversation. They’re in a different world, others might say of them. Throughout history, there have been reports of mystics, saints, and other deeply spiritual folks who, from time-to-time, would fall into trances or deep meditative states and become incommunicado to others. And, when people are comatose, it doesn’t mean that they aren’t experiencing or aware of anything. They just aren’t here in this world in the same way the rest of us may be.

So, whether you are merely “spaced-out” for a time, sleeping through the night, having a near-death experience, or in some other way your consciousness is elsewhere and not here in your body, where is it that you go and what is it that you are doing there? Do you know? Would you like to find out more? After all, it’s a good chunk of your whole life that is, in essence, missing time for you, if you don’t know. Besides, think of all that you could be learning, practicing, accomplishing, and healing, if only you knew what that part of your life was about and how to go about making more use of it.

If you’d like to find out more about your “other” life - or the part of your life that you might normally sleep through and remain unconscious of - join us in Calabasas in the Greater LA area on May 4th and 5th. Come learn a lot more about your out-of-body experiences that you are already having everyday that you may not be fully aware of. Some of it has to do with you not remembering those parts of your experiences, just like you don’t remember everything that you went through a few days ago. Find out what it is to be out of your body, how to get back in at will, and be able to recall more of what you experienced, while you were out, when you do return.

In Saturday’s all-day seminar, we’ll explore the answers to the question, **Where Are You When You’re Not Here?** You’ll learn to become more aware of what it means to be out of your body, why you tend to go out, and how to get yourself back in and be more present here and now. You’ll learn that ***Waking Up to Your Out-Of-Body Experiences*** requires you to be more present in your body first. You’ll discover that going out is easy - it’s the coming back with your full awareness that may be the challenge at first. You’ll learn simple, but powerful psychic tools that will help you to be much more aware of your experiences as a soul both when you go out of your body as well as when you return.

Then, in Sunday’s all-day seminar, we’ll pose the question, **What Do You Do in**

Your Astral Life? You'll learn more about the life you are living when you are out of your body and the vast variety of experiences that you have on the "astral plane" of consciousness. What is this "world" of the astral? How is it different from life here on earth? What goes on there? And, most importantly, you'll discover some of what you "do" there regularly. You'll also learn to make more use of your "astral life", even for what you may be interested in accomplishing here on earth. As a soul, you are more than familiar with your astral life from before you were born. It's time for you to start remembering more of it and how important it is for your spiritual growth and happiness.

If you want to know more about your true self, what your whole life is meant to be, and be able to express much more of your real creativity as a soul, these two seminars will help you get on your way.

I look forward to seeing you in Calabasas/LA! *In the meantime, if you'd like to learn, heal, and grow as you sleep at night, tell yourself that you're going to my "night class" on the astral as you're falling asleep and I'll pick you up in my yellow school bus and take you to school!

With gratitude, love, and laughter,

Michael
