Aloha Kakou!

We're not in Hawaii anymore, Toto but, we can definitely share the spirit of aloha with all of you, no matter where in the world you may be at this time. Even though many face great challenges now, this is still a time of extraordinary opportunities, especially for our spiritual growth, inner psychic development, profound healing, and personal and societal transformation. Despite all of the hardships, this is a time for celebrating each other and experiencing the intrinsic joyousness of life. To be able to do that, we need to be more fully present and enjoy our spiritual growth in our daily lives, get past our fears and be able to make better use of all the guidance and assistance we are being given by Spirit, gain certainty in Spirit, get to know ourselves, and learn to trust ourselves, and, above all, have the courage to be, express, and live who we truly are. And, the time for it is now.

To help you navigate your way through all the personal and global transformations we are undergoing at this time - and for some time to come - we decided to bring what was to be our fabulous annual Hawaii mini-retreat weekend on the Big Island to you in the safety and comfort of your own "shelter-in-place". After all, "social distancing" is only for the safety of our bodies and physical health at this time of

the pandemic and has no bearing on the celebration of our soul relationships with each other around the world. In fact, it is more important than ever now to cultivate and deepen our communication with each other. We welcome you each to join us via Maestro Conference (for the teleclass portions of the weekend) and via Zoom Video Conference (for the optional free Dolphin Meditation, Q & A, and Social with us following the last teleclass). Come get a boost of aloha and laughter (aloha-ha-ha!), while you learn essential psychic/soul tools to help you make the most of the power of this incredible time of transformation we are living in now for you to grow exponentially and joyously.

Here's a sneak-peek at a little bit of what you'll learn in each of the teleclasses that make up this fabulous weekend:

Now Is the Time, Here Is the Place

Your Spiritual Growth & Daily Life During The Great Transformation

Saturday, July 11 10 AM - 12 PM Pacific Time

Eternal life can only be lived right here, right now. In eternity, there is no past or future, only the everlasting present moment. How can you live the life of spirit, your eternal life, while you are incarnated here on earth from birth through your physical death? How do you have your spiritual growth and live your daily life without compromise? Can you run a business or have a career as a computer coder or a nurse and still be on your spiritual path full-time? What if life throws you a big, fast curveball that totally wasn't in your plans? How do you continue to fulfill your soul purpose for being here when you suddenly have to make major unexpected changes? And, what about your pursuit of happiness?

In this teleclass, we'll explore what your spiritual growth is about, how to integrate your inner development and your worldly life, and what this time of the Great Transformation is really about. You'll learn profound psychic tools to help you be more present here and now as you manage your life through the major changes in your life and in the world.

Fear Not!

Psychic Tools to Work with Your Angels

Saturday, July 11 1 PM - 3 PM Pacific Time

Have you ever wondered why so often those who unexpectedly encounter an angel report that the first thing that the angel said to them was, "Fear not!"? Why would anyone be afraid of an angel? An encounter with an angel always brings about profound inner healing of the spirit. With each deeper level of healing, fear is most often the first energy layer that arises in one's consciousness. Most people misinterpret that experience of arising fear within them that they are afraid, but the truth is that they are letting go of past fears. An angel is instructing us that there is nothing to be afraid of as our healing progresses.

During this teleclass, we'll look at what fear is and what is bringing about so much fear in the world at this time. You'll learn to work with your angels to help you to experience and become much more aware of spirit and the way of spirit, especially in this world. You will also learn some simple, but powerful psychic tools to help you in your communication, relationship, and work with your angels. You'll get to work with your angels more so that you can let go of some more of the fears that have been limiting you in your spiritual growth and ability to take your next steps in life.

Know Yourself!

Psychic Tools for Having Certainty in Spirit & Trusting Yourself

Sunday, July 12 10 AM - 12 PM Pacific Time

In Ancient Greece, inscribed in the forecourt of the Temple of Apollo at Delphi was one of the maxims attributed to the Oracle, "Know Thyself". Many of the Greek sages, including Socrates, taught this. This teleclass will be about knowing yourself more fully, gaining more certainty in Spirit, and learning to trust yourself and your own intuitive knowing in making decisions and acting on them in your life. No matter how much you may think you know yourself already, there is so much more for you to know - guaranteed! Remember, you are a limitless spiritual being. That

means there is no end to you. You can only truly get to know yourself through direct experience of who you are - not through any intellectual process.

You'll learn some essential psychic tools that you can use and apply everyday to help you have your certainty in Spirit, which allows you to access your highest intuition or your intuitive knowingness. You'll experience what happens as you gain more certainty in spirit and learn to trust you inner self as spirit much more. As you learn this, you would be able to make your decisions with more clarity and be able to follow through and stick with them more effectively. Having your certainty in Spirit will become increasingly necessary, especially during these transformatonal times.

Be Invincible!

Psychic Tools for Having the Courage to Be Yourself & Live Joyously

Sunday, July 12 1 PM - 3 PM Pacific Time

Can you be open, truly yourself, and invincible at the same time? Often, people immediately associate the term 'invincible' to those who are battle-ready, physically, politically, or in other ways. Yet, the truth of invincibility is that you must be fully yourself. The more you come to know yourself, the more you can then be and live as your true self. When you are fully being yourself, you need no defense. Truth needs no defending or protection. Truth forever stands on its own. When you are true to yourself, you become invincible. Yet, you need courage to be yourself and live your life joyously.

In this final teleclass of this special remote weekend event, you will learn about the nature of courage and to access that inner source of courage, so that you can live more joyously without needing to defend yourself. You'll learn powerful psychic tools to have the courage to be true to yourself and live here in this world with joy, being more of who you are in spirit. Rather than continuing to hide some of your brilliance, you'll learn to live more as the light of the world.
