

**Important Message for  
SHAPE & Everyone**  
from  
**Raphaelle Tamura**

**Please Read this Update:  
We are Holding Off All Our Classes for Now  
Michael in Hospital**

## **Hello SHAPE Group Hello Everyone**

I need to report to you that our beloved teacher, Michael Tamura, was rushed to an ER on Thurs., Jan. 5th. After being tested and spending a grueling night in that ER he was sent to another, larger hospital by ambulance. He was given the somewhat shocking diagnosis of "acute myeloma leukemia," which was quite unexpected though it did make sense as to why he has been so dog-tired for the last month or two. Leukemia is a cancerous disease which suppresses the bone marrow from producing blood. Our bone marrow is where our red & white blood cells are manufactured along with the platelets. When I took Michael to the ER he had less than half the blood he was supposed to have in his body. I have never seen him this ill.

If we had not gone to the ER he would have died within two weeks, that is how bad this was. However, because of the miracles of science along with that of healing, energy work, loving kindness and spirit miracles, Michael has a shot at staying with us for a few more years. This, of course, is on top of his heart issue he has had since 2006.

He has chosen to take a mild chemo treatment for it which he is receiving in the hospital as we speak, here, and which will likely be part of his routine for the rest

of his life, though, after he gets out of the hospital, it will not be as rigorous. Meanwhile it will be life-style changing (which means we might have to move again to afford this.) Right now he is tolerating the chemo surprisingly well so I have great hope that he might make it through this. And his beautiful, cheery spirit is still very much intact, in spite of the difficulty he is going through at this point.

I especially want to address the SHAPE Group because Michael had planned for you an incredible set of teachings this year. He had already created the titles and was trying to finish up the write-ups, but he just got too sick to do that.

What he asked me to tell you is that if the treatments he is taking work and allow him to have some strength back, at some point he would like to at least start the Mastery Course trios. We do not know when that might be but we'll let you know as soon as that becomes an option. I have cancelled our hotels for our in-person get-togethers (such as the one I promised in Novato) because it is most likely that he will not be able to travel this year. This disease makes one especially vulnerable to infections so he will mostly be home and visitors will be kept to one or two at a time - and those have to be scheduled through me. Add to his list of cancellations for his year's activities include travel to Hawaii and Switzerland, I am sorry to say - we will not be going anywhere this year.

He sends his deep love and greetings to all of you and has kept apologizing on the "bad timing" of this. So please hang on to the money you had planned on spending on the Mastery Course, we just might be able to start at least some of it in the future. You know, keep a positive, happy attitude for him and you never know - this man has bounced back more times than the energizer bunny so he might just have a few surprises left in him. But meanwhile, it is time for him to step away from his work, rest and try his very best to heal. I am not trying to sugar-coat this, as this form of leukemia is the most aggressive kind there is. So he has a big journey and lots of work ahead of him and if he survives this, I am sure he will have some amazing things to teach you. If he doesn't survive it, you know full well he will be teaching you still on the astral (he's already told me he's committed to this) since "survival" is a myth anyway. He will always be with us in Spirit whether in-body or not.

#### For Everyone,

We will also be cancelling all our bookings and classes at this point. For those in the current "You Might Be More Psychic Than You Think" classes (and even for SHAPE the "SHAPE Reading Skills Practicum") - we hope to be able to continue these rounds of the classes if/when he gets better, but if he doesn't I will do my best to refund all your money for the pre-payment of that series of classes.

#### Something More:

The timing for this was a bit bad for us as well since we were in a "gap month" of Michael's medical coverage, so I will be spending a great deal of my time figuring

out how we are going to finance this plus our main income will not be happening (that's why we might have to move.) I will still be giving readings, three a week, and once he is home, I might increase that by a reading or two, but I will be his main caretaker so I can't do more than that. So this is a great time to get a reading and help to support us through this, too, at the same time!

### The Most Important Information:

I am sorry but I have to put these "boundaries" in place for now as well as "encouragements to communicate":

1. Michael cannot have visitors in the hospital so please don't ask. Once he is home, please contact me (Raphaëlle) if you want to visit us. We will not be able to host more than one or so persons at our house at a time and remember to never come if you have any semblance of a cold, flu or malaise of any kind. We cannot risk him getting an infection right now as it could kill him.
2. Michael has asked that you not do energy work on him as he has his own way of healing himself and his own choices of who will give him healings. Thank you for wanting to, though, we love you all for that. If you just "can't help yourself" please run your energy, get neutral, call in the Holy Spirit who knows your heart and turn your trust over to the Holy Spirit to help him. Also, you can practice giving him the space he needs to heal without invading that space yourself. And one more thing, just know he loves all of you and on a high-self level knows what you are giving him.
3. It is okay to drop messages to him on Facebook or even privately, but please send longer private messages to my email address and I will forward them to him. My email address is [tamuras@sbcglobal.net](mailto:tamuras@sbcglobal.net) He might not be able to answer them, but be rest assured he will read them.
4. If you want to "help" us in any other way, please leave me an email and I will call on you if needed. I could use all the help I could get but I also don't want to burn anyone out or have too many "helpers" afoot.
5. Please please please do not give us medical advice, readings, diet advice or links to YouTube videos on how to cure cancer. When Michael had his heart attacks we were inundated with these and they didn't help one bit and took up too much of our time. Michael knows this is his growth period, and what a doozy it is! I'm having one, too (I scraped one full side of my car in the hospital parking lot which only had spaces to fit cars no bigger than a VW Beetle because the parking lot was built in the 1970s before SUVs were a thing.). I got it in, but now I have proof that even I get to have symptoms of a growth period while Michael is going through this.
6. If you want to visit us, please contact Raphaëlle. And please, if you have Michael's email address or phone number, please do not contact him through those.

7. If you feel "compelled" to give to us, money is what we will need the most. We don't need flowers or "things" (after all, we're elders now and are trying to "downsize" all our things.) We are not set up as a church so any money you give will not be tax deductible, just so you know. I am only saying this because I know what big givers you are and it is hard not to give to someone who you love and respect who is in trouble like this. This is NOT a solicitation for money but just a comment on those who would want to send something because it has happened every time Michael has been "out of commission" in the past. Debbie, our assistant, is still with us, so she can take care of that if you feel compelled to help us in this way and we thank you for it in advance with all our hearts. Debbie's number is the same, at 1(530) 926-2650 during regular business hours. Also, we will soon have a Patreon site up and running so that is another option when we have that going.

#### Final Comments:

I know this news will hit some of you really hard, so please don't hesitate to do your work around it so you can continue to picture Michael as the amazing teacher his is and always has been to you and so many others. And validate yourself for doing all the great work you have been able to do after learning from him.

Also, we have an amazing community (all of you) consisting of a huge diversity of folks from around the world at many different levels of spiritual development. Thank you for the work you have been doing with us and for your commitment to your spiritual path, we have enjoyed you all so very much. Please know we are not saying goodbye yet! Take care, blow your pictures, get neutral and see Michael as completely healed and bathed in golden Christ light. You never know when a miracle lurks in the shadows to show up for all of us.

I will keep you all informed on how he is doing.

Thank you from the depth of my heart and take care. Oh and by the way, I'm okay, so please don't worry about me. Michael has given us a full nineteen years since his first NDE and I like to focus my gratitude that he is still with us at all to give all that he gives.

For those of you in California suffering the intense rain, please be safe!

With Love & Blessings to you all,
